Overview of Eligibility Process for Wisconsin Well Women Medicaid from the Family Planning Waiver Program

Eligibility Process for a Family Planning Waiver Recipient* with Cervical Cancer or a Precancerous Condition of the Cervix

The FPW recipient receives an abnormal result from a pap test.

The FPW

recipient

receives a

suspicious

clinical

result from a

breast exam.

The woman meets all of the following criteria:

- She receives a colposcopy and biopsy (or other appropriate diagnostic test) through the FPW program.
- She is diagnosed with cervical cancer or a precancerous condition of the cervix.
- She needs treatment for the cancer or precancerous condition.
- She does not have commercial health insurance coverage or Medicare to cover the treatment.

The woman is eligible, upon completion of the enrollment process, for Wisconsin Well Women Medicaid.

The woman is

eligible, upon

completion of

the enrollment

Wisconsin Well

process, for

Women

Medicaid.

She needs treatment for the cancer.
 She does not have commercial health insurance coverage or Medicare to cover the treatment.
 * Women receiving services through Family Planning Waiver (FPW) Presumptive Eligibility (PE) are not eligible for Well Woman Medicaid. (If a

^{*} Women receiving services through Family Planning Waiver (FPW) Presumptive Eligibility (PE) are not eligible for Well Woman Medicaid. (If a woman receiving services through FPW PE needs diagnosis or treatment for cervical cancer or breast cancer, she should enroll in the FPW program or the Wisconsin Well Woman Program [WWWP] immediately. Once enrolled in the permanent FPW program or the WWWP, the woman may become eligible for Well Woman Medicaid.)
